## 1. 企業紹介(日文)

CHENFULL PRECISION CO., LTD has rich experience in precision machining for 37 years and aims for Integrated manufacturing services for critical precision components. We offer the best total solution to satisfy our customers under our precise management system, now we are also a significant supplier of the critical parts and components for Semiconductor and Optoelectronic Equipment Industry in Taiwan and aggressively worldwide.

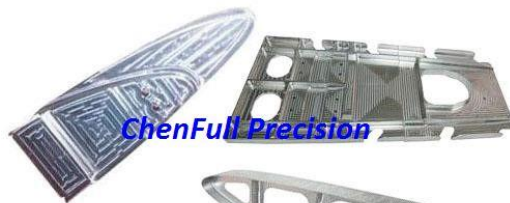

The products we manufacture :

- ◆ Key Parts and Components for Semiconductor and Optoelectronic

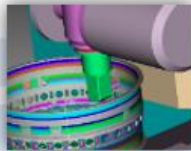

◆ Aircraft Engine Case and Structure Parts

## 2. 事業内容 (得意技術、強み) (写真含むも良い)

We provide Integrated manufacturing services for critical precision components.

Our Core Technologies are including System Project Integration, Precision machining, Welding, Surface treatment, Measurement, Module assembling and Testing.
